PROFILE

Motivated and results-driven third-year college student with a strong passion for software development and project management.

Experienced in building web and desktop applications using Python, Flask, Tkinter, and SQLite.

Bachelor of Technology student with a solid academic foundation, committed to continuous learning and self-improvement.

I am keen to gain hands-on experience in a dynamic environment where I can apply my skills, grow as a professional, and make a meaningful contribution as an intern.

EXPERIENCE

Technical Skills:

- Well-versed in **HTML, CSS, JavaScript, C/C++, Python, and MySQL**.
- Experienced in building desktop and web applications involving **CRUD operations, UI design, and local storage handling**.
- Built an **Expense Tracker web application** to manage personal finances, allowing users to add, delete, and track expenses in real time using local storage (primary project).
- Familiar with **Tkinter and other UI design tools** used in my projects for building interactive interfaces.
- Comfortable with **Git/GitHub**, API integration, and responsive UI frameworks.
- Several personal and collaborative projects are available on my GitHub: <https://github.com/Adrika-02>

Internship:

- Web Development Intern – Elevate Labs**

June 2025

Worked on frontend components, contributed to responsive web modules, and collaborated with the development team to enhance user experience and interface design.
